**STAINS UPON LINEN, CAMBRIC, COTTON, OR MUS-
 LIN.**—In nearly all cases, stains may be removed
 by means of chloride of lime; which substance
 is sufficiently common to be had of every drug-
 gist. It is applied thus:—Dissolve about two
 teaspoonsful of the chloride of lime in a quart of
 water; take another portion of water, and make
 it perceptibly sour, by the addition of white vin-
 egar (the ordinary brown vinegar will do nearly
 as well); now well wet the stained or discolored
 articles with the sour water, then put them into
 the solution of the chloride of lime; perfect
 bleaching will then take place in from ten to
 twenty minutes; in some instances, the opera-
 tion must repeated once or twice; finally well
 rinse in plenty of clean water. The omission
 of the vinegar is the chief reason why so many
 persons fail in their attempts to bleach with
 chloride of lime.

Come from your long, long roving
On the sea so wild and rough ;
Come to me tender and loving,
And I shall be blest enough.

Where your sails have been furling,
What winds have blown on your brow,
I know not, and ask not, my darling,
So that you come to me now !

Sorrowful, sinful, and
Poor and despised though you be ;
All, all are nothing, if only
You turn from the Tempter to me.

Of men though you be unforgiven ;
Though a priest be unable to shrive •
I'll pray till I weary all Heaven,
If only you come back alive !
